Message from the Director

September marks the start of a new academic year around the world. And it brings new possibilities for us to renew ourselves professionally and to make a positive change in the lives of our students, our institutions, and our communities. As faculty, administrators and staff, we serve as the primary catalysts for that change. Let us resolve to enter this new academic year with a renewed sense of optimism and determination about the transforming power of higher education. Whether through our discussion boards, our research projects, or our portal and review, we look forward to collaborating with you throughout the new academic year.

Regards,

Patrick Blessinger
