Call for Papers

Does ChatGPT, and artificial intelligence in general, impact teaching? Yes. Are we underestimating or overestimating its potential? Does it represent an emerging paradigm shift in education, or is it a passing technology trend whose impact is too early to determine? Through inclusive citizen science, we can explore these questions and more.

Inclusive Citizen Science

Our goal is to help find solutions to the disparities across the world by supporting researchers working in this area. We believe in quality education for everyone, everywhere. Emerald and HETL are proud to support the global research community through an award programme that brings you HETL Frontiers magazine, the world’s leading research, policy, and practice publication in higher education. HETL’s aim is to present diverse perspectives and ideas on the emerging trends in higher education. HETL Frontiers clearly shows the value of continuous learning and innovation in the education sector.

List of research areas

• Educational leadership
• Lifelong learning
• Remote teaching, learning, and collaboration
• Student mobility models
• International curricula and assessment
• International research and innovation in institutions
• Global leadership in international higher education
• Inclusive leadership and curricula
• Education and policies amid and post-COVID-19.

List of topic areas

• Inclusive leadership
• Re-imagining education:
  • The chief aim of inclusive leadership in higher education is to create a participatory and inclusive culture for all.
  • Inclusive leadership in higher education is about creating an environment of equity, diversity, and inclusion.
• Remote teaching and learning:
  • The COVID-19 global pandemic concretely illustrates the importance of remote teaching and learning.
  • Learning Futures.
  • The future of learning
  • Educational leadership involves working with teachers and instructors in practice via whole group lecture/discussions and small group learning activities. This workshop addressed the key concepts of diversity, equity, and inclusion and will give participants opportunities for reflection and discussion.
• International curricula and assessment
  • International curricula and assessment are an important aspect of higher education. It involves the development of curricula that are relevant and appropriate to the needs of students from different countries and regions.
• National policies and international higher education
  • National policies and international higher education are closely related.
• Global leadership in international higher education
  • Global leadership in international higher education is a complex issue that involves the collaboration of countries from different parts of the world.

Note: The above list is not exhaustive. Please refer to the Call for Proposals for full details.
